*Bryan and I love the warm tones of our fine, Portuguese stoneware. Cappuccino, ice blue and warm white make an eclectic statement with interesting shapes and monochromatic patterns. We dress it up with fine, recycled aluminum serving pieces. We are excited to entertain with all of our new heirlooms!*

The artisans of this wonderful serve ware reside and work in remote villages in the South Pacific. Each piece is hand-made of water-vines which only grow in remote mountain jungles and are very difficult to reach and to harvest. However, once reaped, the vines grow back quickly, leaving no damage in their native forests. At a mere 3 millimeters in diameter, barely one-fourth as thick as typical rattan, the vine takes 1-7 days to hand-weave into a finished design that yields a substantially more durable, heat-resistant and elegant product.

**Oval server with 4 qt. Pyrex®
